SUMMARY

As a full stack developer with 2 years of experience, I specialize in frontend, backend, and DevOps. On the frontend, I excel in technologies like React.js and Next.js, while on the backend, I leverage Node.js, PostgreSQL, MySQL, Sequelize, Express, NestJS, and GraphQL. My expertise lies in building dynamic web applications with clean, efficient code. Additionally, I am proficient in UI development using Tailwind CSS, Storybook, and Jest for testing on both the frontend and backend. I also have experience with Nginx, PM2, Linux, Ubuntu, MinIO, and AWS. I'm eager to collaborate on innovative projects for exceptional digital experiences.

EXPERIENCE

Aug. 2023 Aug. 2024	ALIMCOSOF PVT LIMITED Full stack developer Experienced Full Stack Developer specializing in Next.js, React.js, PostgreSQL, GraphQL, AWS, Nginx, and PM2. I deliver responsive UIs and manage backend tasks, ensuring smooth API integration and scalable performance. Strong in DevOps with AWS and Nginx for seamless deployment. Looking for project-based opportunities to build dynamic, user-focused applications.
Feb. 2023 Jul 2023	APPSPOT PVT LIMITED Full stack developer As a Full Stack Developer, focusing primarily on backend development with technologies such as Node.js and Express.js. Proficient in database management with MySQL. While possessing frontend capabilities with React.js and Next.js, primary focus was on backend architecture and implementation. Contributed to translating design concepts into dynamic user interfaces, ensuring a seamless user experience. Worked closely with cross-functional teams, prioritizing delivery of high-quality backend solutions that effectively met project objectives.
Apr. 2022 Jun 2022	ITECEPERTS PVT LIMITED Back end Developer Node.js As a Back-End Developer focused on Node.js , played a key role in projects, utilizing technologies like Express.js, MongoDB, and MySQL. Responsibilities included building robust backend systems, ensuring seamless user experiences, and collaborating closely with cross-functional teams to deliver high-quality results.

SKILL

- NodeJs
- Postgress
- ReactJs
- NestJs
- MySQL
- NextJs
- Express
- MongoDB
- StoryBook
- GraphQL
- Jest Testing
- Redux
- AWS
- Git & GitHub
- Tailwind css

WORKED ON PROJECTS

TRACKER: overview	<p>Tracker is a 3-Def Portal, a comprehensive application where I spearheaded the development of various components, ensuring efficiency and scalability of the codebase. I prioritized reliability by authoring comprehensive unit tests for component robustness. Additionally, I designed and implemented pages and seamlessly integrated REST API endpoints for enhanced functionality. Utilizing Redux for state management, I ensured seamless data flow and synchronization between components. Independently, I developed the backend using Node.js with GraphQL for optimized data querying, Sequelize for ORM, and PostgreSQL as the database.</p> <p>Techs: Nextjs , tailwind css , redux, typescript ,Nodejs Graphql , Sequelize , PosgressSql , express</p> <p>Link(admin) :https://www.admin.alimcosoft.com/</p>
NEECA: overview	<p>As a Full Stack Developer, I spearheaded the creation of NEECA's 5-Def Portal, a comprehensive platform tailored to accommodate diverse user roles including Admin, Vendor, Lab, Printing Firm, and Customs. Leading the frontend development, I meticulously designed and implemented various components and pages, ensuring a seamless and intuitive user experience. Collaborating closely with UI/UX designers, I integrated frontend elements with backend functionalities, fostering a unified system.</p> <p>Independently, I architected and developed the backend infrastructure using Node.js with GraphQL for optimized data querying. Leveraging technologies such as Sequelize as the ORM and PostgreSQL as the database, I ensured robust data management and scalability. This autonomous approach facilitated streamlined backend development, enhancing the platform's performance and reliability.</p> <p>Techs: Nextjs , tailwind css , redux, typescript ,Nodejs Graphql , Sequelize , PosgressSql , express</p> <p>Link(admin): https://management.neers.com.pk/</p>
Hearingly: overview	<p>As a Frontend Developer at Hearingly, I successfully completed numerous tasks assigned by management, including API integrations and designing and developing components and pages. Leveraging technologies such as Next.js, Tailwind CSS, Zustand, TypeScript, and SwellJS, I ensured seamless functionality and an enhanced user experience. My contributions played a vital role in optimizing the performance and functionality of the platform. You can explore one of my recent projects, Hearingly, to see my expertise in action.</p> <p>Techs: Nextjs , tailwind css , zustand, typescript, swelljs</p> <p>Link: https://dev.hearingly.com/</p>
FOODIL: Overview	<p>I developed Foodil, an e-commerce website featuring distinct flows for Buyers, Sellers, and Guests. For Buyers, I implemented registration, product browsing, search and filter functionalities, cart management, order placement, and order history viewing. The Seller Flow enabled account creation, product addition, and tracking of product status. Guests were provided limited access to</p>

	<p>product viewing. Additionally, I built an Admin panel for user management, including account approval, rejection, or blocking, and product oversight. Collaborating as a Frontend Developer, I contributed to designing and implementing both the website and admin panel. Technologies utilized include React.js, Tailwind CSS, and Redux, ensuring a responsive and user-friendly interface.</p> <p>Techs: ReactJs , Html , tailwind css , typescript , Graphql apis</p> <p>Link: https://foodil.co/</p>
Polar: overview	<p>As a Frontend Developer with PolarPro team, I successfully completed few tasks assigned by management, including API integrations and designing and developing components and pages.</p> <p>Techs: nextjs , tailwind css , shopify</p> <p>Link: https://polarpro.com/</p>
Travel Noire: overview	<p>As a Frontend Developer with Travel Noire team, I successfully completed numerous tasks assigned by management, including API integrations and designing and developing components and pages.</p> <p>Techs: VueJs , SCSS ,</p> <p>Link: https://travelnoire.com/</p>
Scritta: overview	<p>As a Full stack Developer with Scritta team, I successfully completed numerous tasks assigned by management, including API development and integrations and designing and developing components and pages.</p> <p>Techs: nextjs , tailwind css ,mysql , using nextjs api,</p> <p>Link: currently inprogress</p>
En Route: overview	<p>Overview: As a Full Stack Developer with the En Route team, I successfully completed numerous tasks assigned by management, including backend integrations, and designing and developing components and pages.</p> <p>Techs: React Native, Supabase, i18n</p>
Freedom Elite Funding	<p>I successfully completed the Fiverr project, including API development, integrations, designing, and developing components and pages. Additionally, I handled the deployment using AWS EC2.</p> <p>Techs: nextjs , tailwind css, using nextjs api, etc</p> <p>Link: https://freedomelitefunding.com/</p>
